POMPA - PUMP SB400

AUTOADESCANTI AD INGRANAGGI DA FLANGIARE SULLE CISTERNE

Cilindrata: 270 cm³/giro

Portata: 250 l/min. a 950 giri/min.
380 l/min. a 1.450 giri/min.

Peso: 85 kg.

- Corpo pompa completamente immerso entro la cisterna.
- Camicie di riscaldamento che avvolgono completamente la pompa (non una semplice calotta riscaldata) per ridurre i tempi di partenza da freddo.
- Massima facilità di manutenzione, gli ingranaggi possono essere smontati dall'esterno, senza svuotare la cisterna.

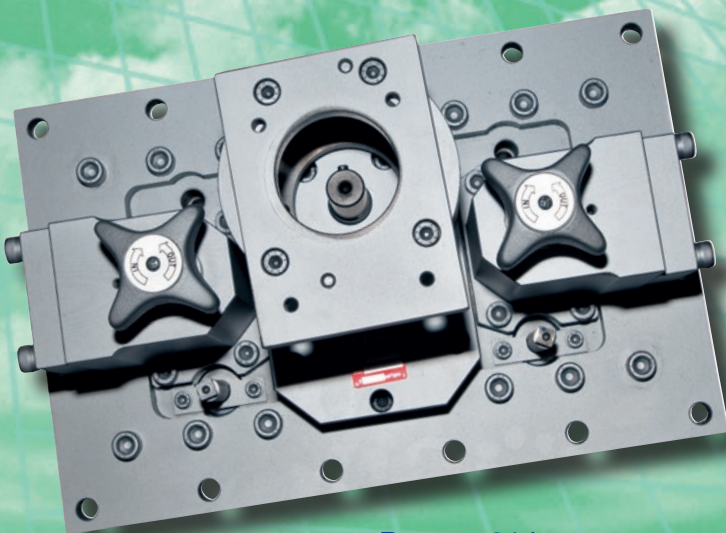

SELF PRIMING GEAR PUMP TO BE FLANGED ON TANKS

Displacement: 16.5 cu.in./rev.

Delivery: 68.0 g.p.m. at 950 r.p.m.
103 g.p.m. at 1450 r.p.m.

Weight: 187 lb.

- The pump body is fully immersed inside the tank.
- Heating jackets fully enveloping the pump (not only a bottom heating cap) to reduce warm-up time.
- Very easy maintenance: pumping gears can be removed externally without emptying the tank

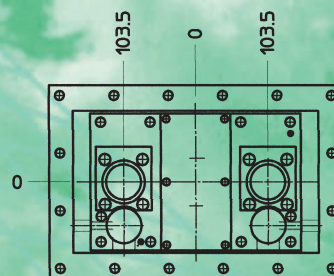

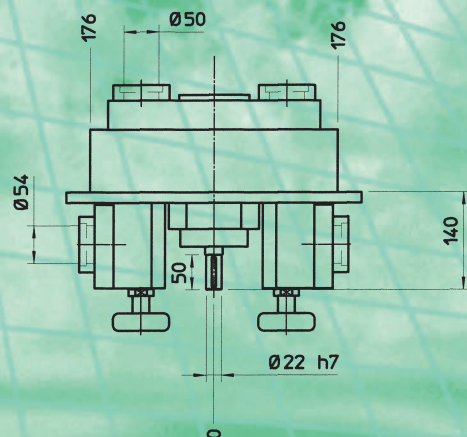

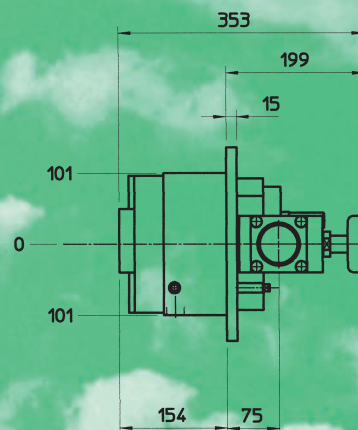

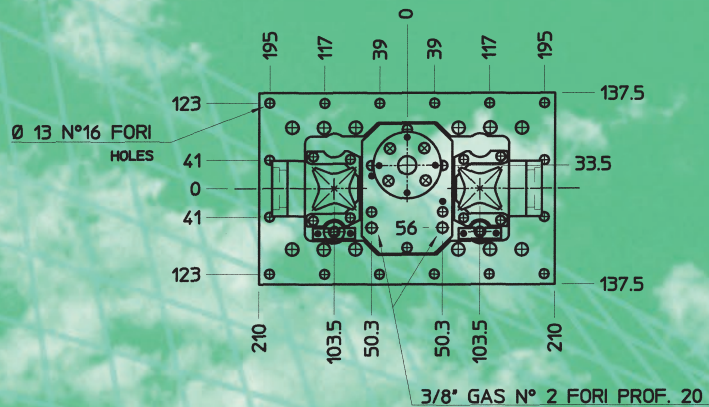

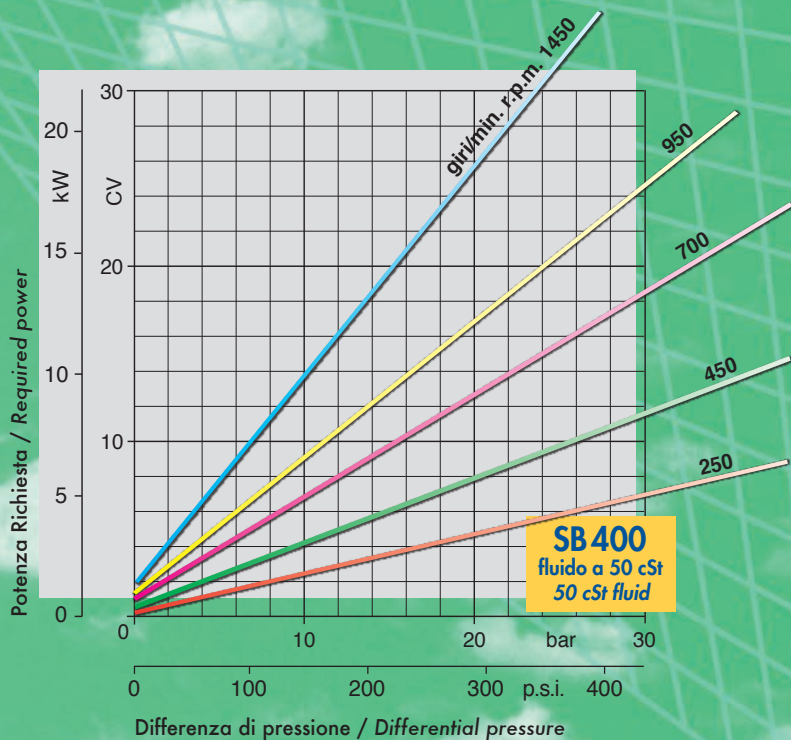

Peso 91 kg.

Weight 200 lb.

- Pratico sistema per il montaggio del motore adattato alle esigenze dimensionali del cliente.
- Very easy system for placing the motors adapted to customer geometric specifications.
- Valvole di by-pass incorporate.
- By-pass valves incorporated.
- Funzionamento completamente simmetrico, con possibilità di mandare e di aspirare sia dall'interno che dall'esterno.
- Fully symmetrical running: suction and delivery may be chosen both from inside the tank, or from outside.

giri/min r.p.m.	Portate nominali Nominal Flow		
	m ³ /h	l/min	g.p.m.
